

Start-up and Annual Fees for Branches of Existing MORE members
9/16/2011

New branches for existing MORE members will pay the following:

Start-up Fees

When a library that is currently a member of the MORE Consortium opens a branch library, MORE will pass through to that library our Integrated Library System vendor's cost for additional staff licenses and scoping and any additional costs due to the ILS vendor. Ten percent of those costs will also be charged to the library opening a branch to cover the administrative tasks required for opening a branch.

Annual Fees

There will not be any separate annual fees charged for branches of existing MORE-member libraries. The circulation and item count numbers from the branch will be added to the parent library's totals. The parent library's annual fees will then be calculated per Appendix B.
