★☆☆☆☆ **Do not buy**

June 10, 2018

Verified Purchase

I bought this before i did any research. Season 2 isnt even released yet. I only looked it up after i received this in the mail. The plastic shrink wrap tipped me off. Its absolutely home done shrink wrap that gets put on with a heat gun. Its not professional. I did not even open, immediately returned. Buyer beware.

I enjoy the Murdoch Mysteries. Just wish they weren't so expensive. Waiting for the price to be reduced on season 11. It is a nice wholesome show with interesting plots---some better than others, of course.

Editorial Reviews

An announcement trailer revealed that the second season consisted of nine episodes as well as showing the working title for each episode. Filming of the season started in Atlanta, Georgia on November 7, 2016. Set in Hawkins in the fall of 1984, the story continues as supernatural forces once again begin to affect the town. While the season services the first season's core cast and characters first and foremost, several new characters are introduced: tomboy Max and her older step-brother Billy, a woman named Kali connected to Hawkins Lab, RadioShack manager Bob Newby, Department of Energy agent Dr. Owens and disgraced journalist-turned-conspiracy theorist Murray Bauman. Similar to the previous season, Season 2 was lauded by critics and audiences alike and was praised for being much more horror-oriented

Overview

Ragnar Lothbrok was the greatest, most valiant hero of his time, who embarked on a saga with his Viking brothers. He rose through the ashes of his forefathers to become a Viking King, reigning over the tribes as their fearless warrior and noble leader. Each episode details Ragnar's ventures to becoming a Norse legend – one that was similar in virtue and faith to the mythical Gods of that age. While his lineage is unknown, rumors spun weaves of magic into his background, as followers often commented that he was the descendant of Odin – the God of war and mighty fighters.
